

# DOMACLS

Your Trusted  
Partner in Material Handling Solutions

"Comprehensive Solutions for Cement, Steel, Fertilizer, and Beyond"

[www.domacls.com](http://www.domacls.com)

# Introduction

## About us

Founded in 1993, Domacils Pvt Ltd has emerged as a trusted name in the material handling industry. We specialize in designing and manufacturing advanced equipment solutions, meeting the unique demands of diverse sectors, including cement, steel, fertilizer, and food industries. Our core expertise lies in crafting innovative systems to enhance efficiency, streamline processes, and elevate productivity for our clients.

Our Expertise With a management team comprising technocrats with 40 years of experience, our company is built on a foundation of deep industry knowledge. Supported by a skilled team of General Managers with over 30 years of experience in design, marketing, estimation, planning, production, and quality control, we ensure every project is executed precisely.

# Our Legacy of Excellence

## Industry Presence and Global Reach

Our solutions extend globally, with equipment installations across India and exports to Bangladesh, Nepal, Sri Lanka, Dubai, Kuwait, and South Africa. We are proud to collaborate with respected partners such as M/s. L & T Ltd. Mumbai, F L Smidth Chennai, and others to deliver quality and innovation internationally.

**Milestone Projects:** Our work in the cement industry stands as a testament to our capabilities.

### Notable projects include:

- Ultra Tech Cements Ltd: Multiple belt conveyor installations across locations, including Hotgi, Nagpur, Rawn, Hirmi, Dhar and others.
- Ramco Cements: Major projects across Ariyalur, Alathiyur, Jayanthipuram, and others.
- Chettinad Cements Ltd: Extensive work across sites.

# Comprehensive Solutions

## Our Core Offerings

At Domacils, we deliver a broad spectrum of material handling equipment, designed for durability and high performance. Our equipment portfolio includes:

- Belt Conveyors
- Screw Conveyors
- Bucket Elevators
- Chain Conveyors
- Roller Conveyors
- Truck & Wagon Loaders
- Rotary Air Locks
- Pelletizers

Each solution is tailored to fit the operational requirements and technical specifications of our clients across industries.

## Project Execution Capabilities

From design and detailed engineering to manufacturing and on-site installation, we handle every project stage with expertise. Our team ensures that every installation operates smoothly, adding value to your operational workflow.

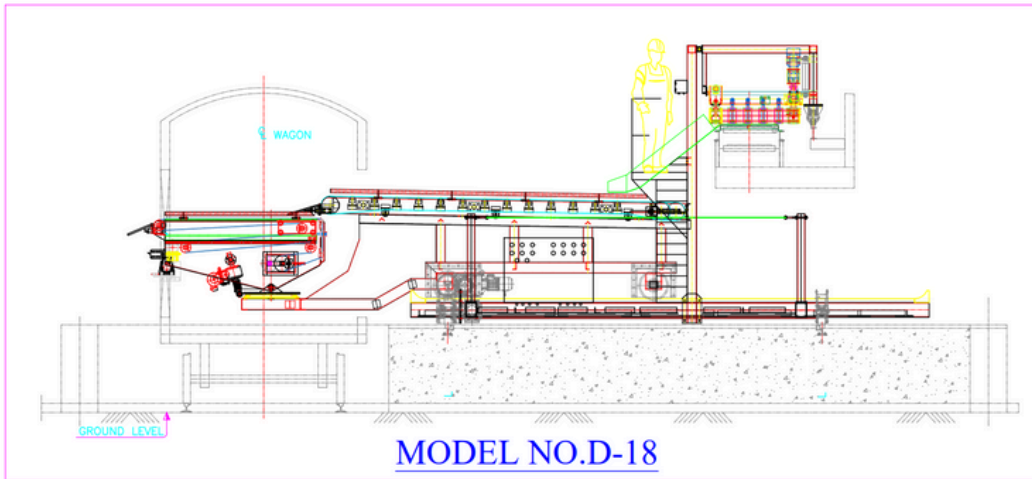

## WAGON LOADING MACHINE

We are one of the prime suppliers of Wagon Loading machines, with a capacity ranging from 1200 to 2400 bags per hour. We supply One, two, and three-module wagon loading machines for various types of railway wagons.

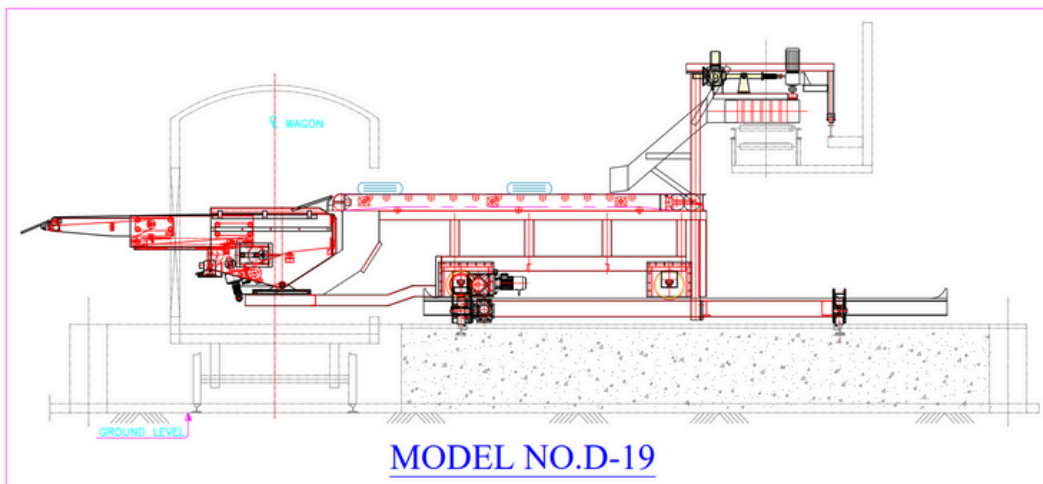

# WAGON LOADING

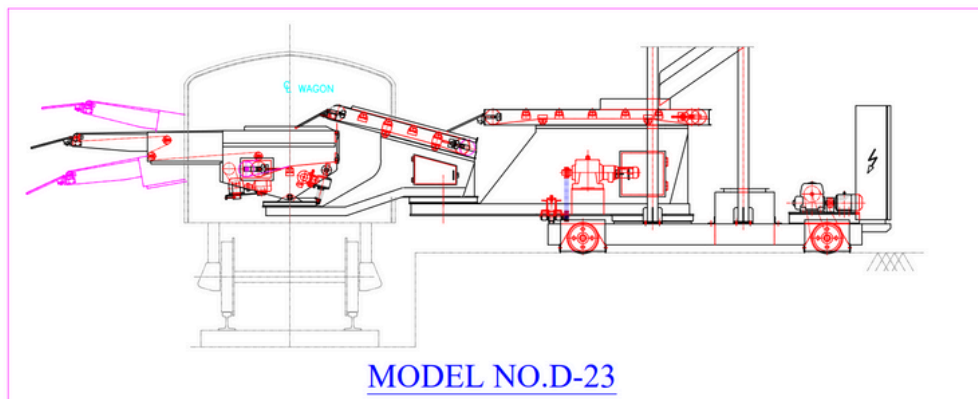

Model : D-18 / Single Module

Model : D-19 / Two Module

Model : D-23 Single Module

Capacity : 1800 bags / hour

## TRUCK & TRAILER LOADING MACHINE

Manufacturing & supply all types of standard & customized loaders for open and closed type trucks / trailers. We also offer hanging type hydraulic operated semi-automatic loaders.

### HANGING TYPE

# TRUCK & TRAILER LOADING MACHINE

PLATFORM MOUNTED

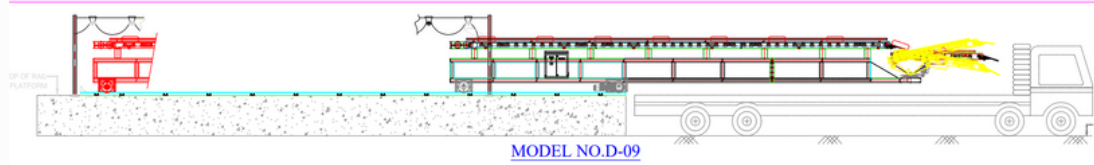

# TRUCK / TRAILER LOADING

## Platform mounted

**Model : D-05 / Travel length Upto 30 ft**

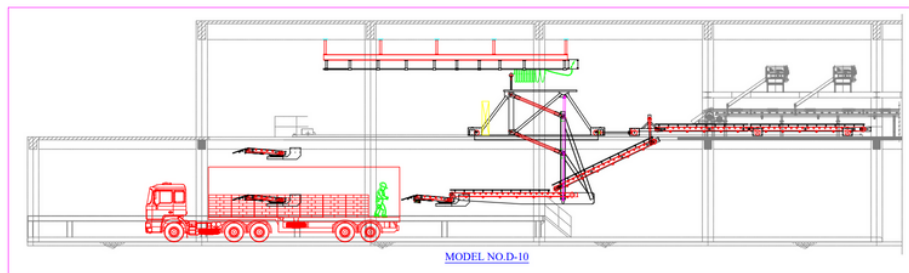

**Model : D-09 / Travel length Upto 40 ft**

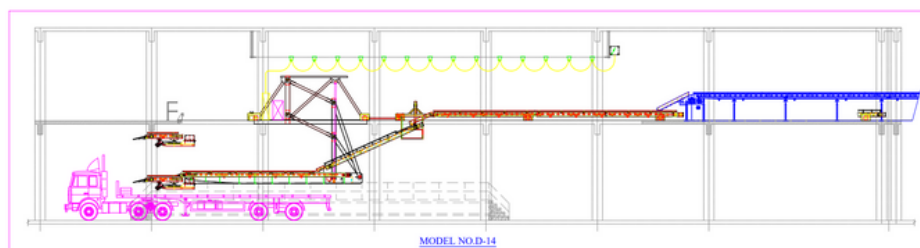

## Hanging (Hydraulic)

**Model : D-10 / Travel length Upto 30 ft**

**Model : D-14 / Travel length Upto 40 ft**

**Capacity : 1800 - 2400 bags / hour**

## PELLETIZERS

Advanced pelletizers designed for productivity and profitability – revolutionize your manufacturing process with our cutting-edge solutions.

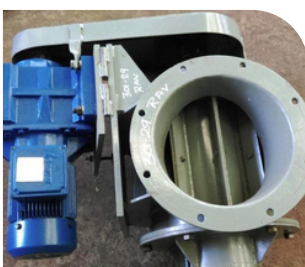

## BUCKET ELEVATORS

We have a wide range of bucket elevators for continuous and sluggish flowing materials of various capacities. We supply both Belt & Chain type Elevators. Centrifugal, continuous & positive discharge bucket elevator supplied depending on various applications & material handled.

## ROTARY AIRLOCK VALVES

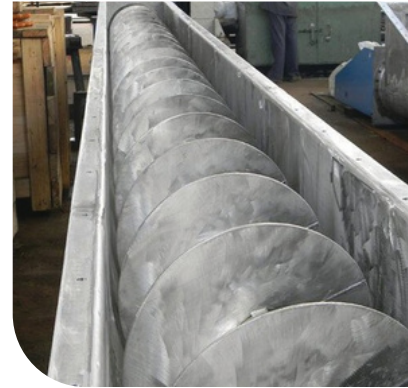

Our RAV are used in wide range of applications in minimizing the losses during change in pressure & it also doubles up as feeder. We have wide range of RAV for different capacity both in fabricated & cast type construction.

## SCREW CONVEYORS

We design and manufacture horizontal, inclined, and vertical screw conveyor. We have different types of screw conveyors ie twin, multiple screw, screw feeder. We supply both U-Trough & Tubular construction Screw Conveyor

## CHAIN CONVEYORS

We have wide manufacturing range of chain conveyors. We design & manufacture Drag Chain Conveyor, Scraper Chain Conveyor & Spillage Chain conveyor (For long length)

## ROLLER CONVEYORS

Roller conveyors are widely used in the handling packing industry. We design & manufacture both gravity type roller conveyor & powered roller conveyor. Powered roller conveyor we can supply both belt & chain drive arrangement options.

## BELT WEIGH FEEDER

We design & manufacture Belt Weigh feeder for metered / controlled feeding of critical equipments.

## ALL TYPES OF GATES & VALVES

We have wide range of Gates & valves. We Design & Manufacture Two Way & Three way diverting gates both flap & bucket type, slide gate, Rod gate, sector gate, dampers etc

## BELT CONVEYORS

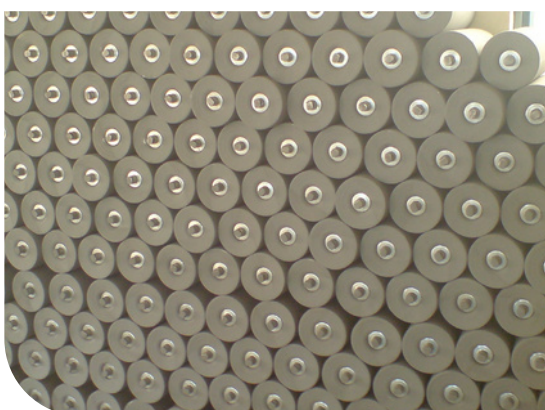

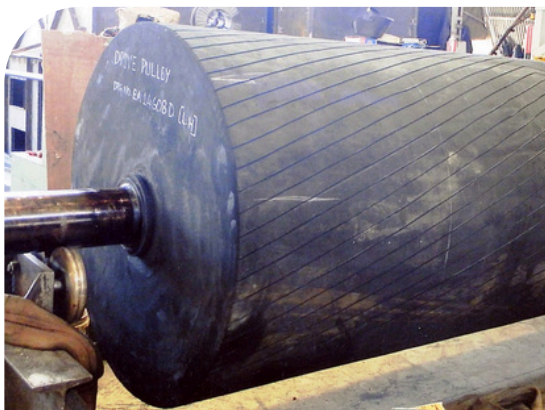

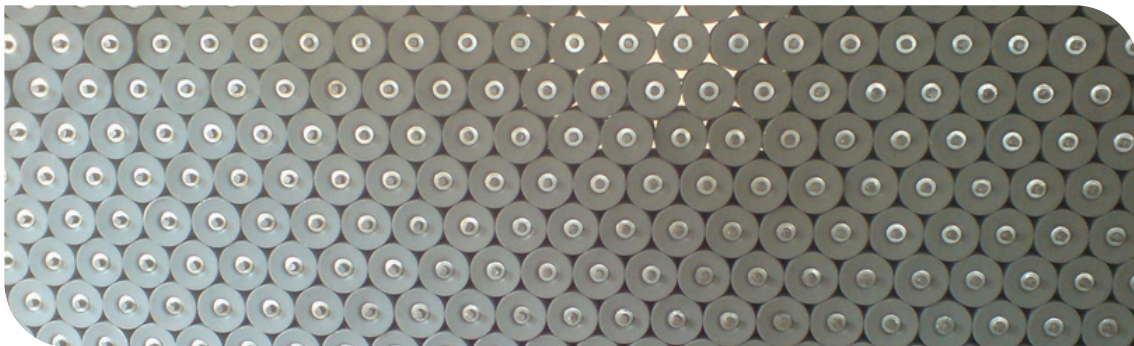

We are one of the oldest manufacturers of Belt conveyors in the industry with experience and expertise of more than 30+ years. We design & manufacture Belt conveyors for wide range capacity upto 2500TPH. Belt width upto 2400mm wide. We manufacturing all types of Belt conveyor for all applications. Our range Troughed Belt conveyor, Flat – Bagging, High angle, Cleated Belt Conveyor, Side wall belt conveyor

## PULLEYS & ROLLERS

High quality pulleys and rollers for seamless power transmission and smooth operation- manufactured in the state of art facility and highest quality standards.

## Industry-Specific Solutions

### **Cement Industry**

Our vast experience in the cement sector includes raw material handling, clinker transport, coal handling, and cement bag handling. Clients such as UltraTech, Ramco, and Chettinad rely on us to streamline their operations with reliable and robust systems.

### **Steel, Fertilizer, and Food Industries**

With tailored solutions for each sector, we deliver efficient handling of raw materials and finished goods. Our equipment supports high-demand environments, ensuring safety, reliability, and peak productivity.

### **Foundry and Power Plants**

Our conveyors, specially designed to handle high temperatures and abrasive materials, are suited for foundry and captive power plants, with installations across India and beyond.

# Clientele

# Clientele

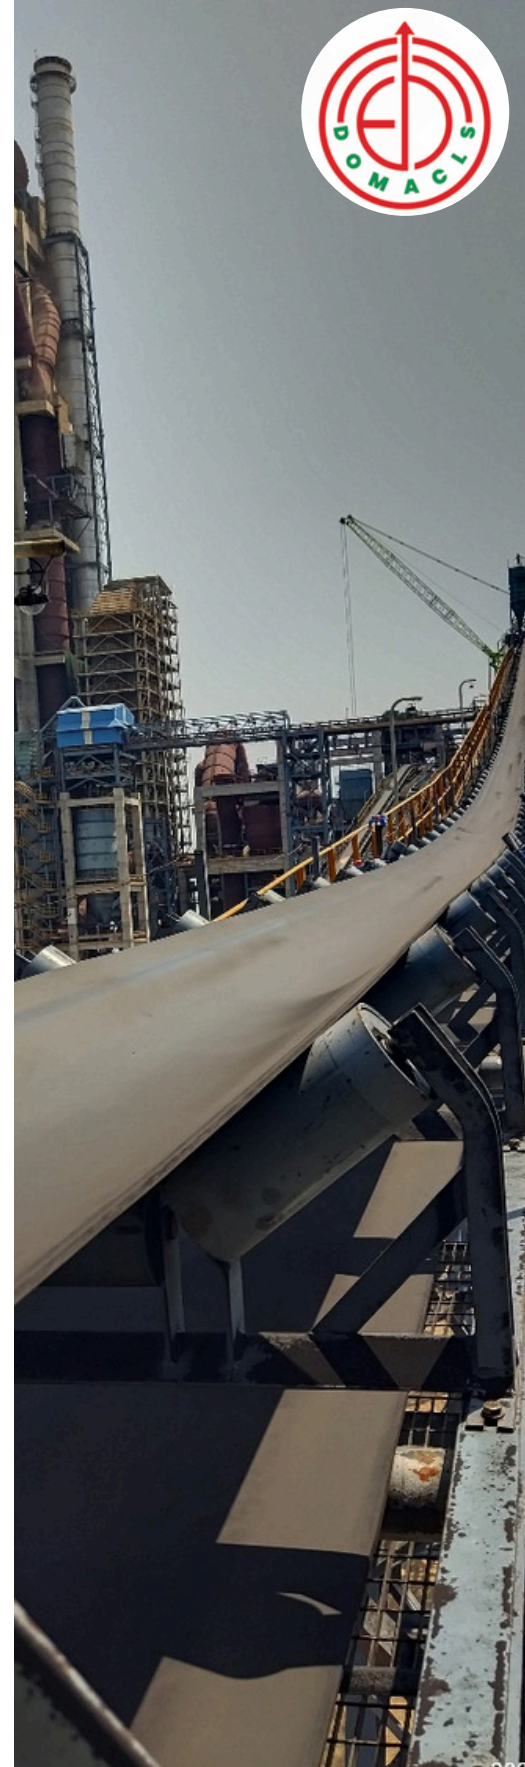

## Project Highlights

### Specialized Projects and Custom Solutions

- Customized Conveyor Systems for UltraTech Cements Ltd.
- Hotgi, Nagpur, Dhar, Rawan and other projects.
- Packing Plant Solutions for Chettinad Cements Pvt. Ltd.
- Including rotary packers, truck loading machines, and associated conveyors for seamless operation.
- Specialty Foundry Conveyors for M/S DISA INDIA LTD.
- Mould cooling conveyors are designed to withstand temperatures up to 350°C, serving clients in India, Mexico, Saudi Arabia, and beyond.

### Commitment to Quality

Our dedication to quality and precision engineering ensures that every piece of equipment we deliver meets the highest standards. Rigorous quality control and advanced testing processes guarantee reliable performance.
